

New Product Bulletin

450 kV Right-Angle Remote Tubehead

Design Features

- Compact design allows for use in confined spaces.

- Same rugged and reliable construction as the standard, straight-line 450 kV Remote Tubehead
- Flexible mounting system allows easy adjustment of Tubehead direction.
- The Right-Angle Tubehead is compatible with any HP or L-3 Communications Pulse Sciences manufactured system. The Right-Angle Tubehead uses the same standard remote tubehead cable, and the same X-ray tubes as the Straight-Line Remote Tubehead.
- The Right-Angle Remote Tubehead comes ready for use with either SF₆ insulating gas (for use with older systems) or high pressure Air insulation (for use with newer or air-converted systems).
