For Immediate Release

L-3 Linkabit Awarded Contract for Screening Obscuration Module Development and Production for U.S. Army Contracting Command

SAN DIEGO, October 3, 2016 – L-3 Linkabit announced today that it has been awarded a contract with the U.S. Army Contracting Command at Aberdeen Proving Ground for the System Integration and Demonstration (SID) phase of the Screening Obscuration Module (SOM) program. The SOM is a modular, soldier-portable device that can be mounted on combat vehicles or ground emplaced to generate and sustain an obscuration screen to degrade observation and detection during ground and aerial reconnaissance and attack. Under the awarded contract, L-3 Linkabit will design, develop, fabricate, install and test SOMs for future production and fielding. The contract includes four options to manufacture and deliver production SOMs. L-3 Linkabit will perform the work at its Melbourne, Florida facility.

“The SOM provides an infusion of new technology to improve soldier protection and the platform survivability levels of maneuver forces on the battlefield,” said Elissa Seidenglanz, president of L-3 Linkabit. “We are proud of the great relationship we’ve had with this customer for more than 15 years, developing obscuration technologies and systems to neutralize and degrade enemy weapon systems across the full range of the electromagnetic spectrum.”

L-3 Linkabit has been a global leader in design, development and engineering for over 45 years. The company specializes in providing tactical mobile SATCOM On-The-Move solutions, as well as low-SWaP and high-performance signals intelligence (SIGINT) and direction-finding (DF) systems. To learn more about L-3 Linkabit, please visit the company’s website at www.L-3com.com/Linkabit.

Headquartered in New York City, L-3 employs approximately 38,000 people worldwide and is a leading provider of a broad range of communication and electronic systems and products used on military and commercial platforms. L-3 is also a prime contractor in aerospace systems. The company reported 2015 sales of \$10.5 billion. To learn more about L-3, please visit the company’s website at www.L-3com.com.
