

Applied Technologies

2019 Hands-On Training Course for FLASH X-RAY and DIGITAL IMAGING SYSTEMS “Operation, Maintenance & Troubleshooting”

July 15–19, 2019

L3 Applied Technologies is pleased to host its annual five-day Flash X-ray and Digital Imaging seminar at its San Leandro, CA, facility, located in the San Francisco Bay Area. L3 Applied Technologies believes that keeping current with today’s technologies using our highly interactive training sessions leads to faster learning.

NOTE: Training materials supplied on the student's choice of either a **thumb drive** or on a **CD**

COST

US\$4,500 includes class material on either a thumb drive or CD

LOCATION

L3 Applied Technologies
2700 Merced Street, San Leandro, CA 94577

CONTENT

The five-day seminar will include:

- Lectures covering:
 - System overview
 - Fundamentals of radiography
 - Fundamentals of digital image processing
 - Instrumentation of triggering
 - Soft X-ray imaging
 - Hands-on ballistic training
- Lab work on troubleshooting, maintenance and ballistic applications
- Mid-morning & afternoon snacks and lunch (Monday through Thursday)
- Graduation dinner (Thursday)

INSTRUCTORS

- **Chris Ferguson**, Flash X-ray Engineer
- **Peter Laurence**, Director of Industrial & Radiographic Solutions
- **Norman Link**, Imaging Specialist

ENROLLMENT

In order to provide adequate lab instruction, the class size will be limited to 20 attendees. L3 Applied Technologies reserves the right to cancel or reschedule if minimum attendance requirements are not met by June 17, 2019. If L3 Applied Technologies cancels, all prepaid registration fees are fully refundable.

REGISTRATION

REGISTER EARLY! To reserve your place in class, e-mail the registration form (see page 2) with 50% deposit/full payment to:
