L-3 Cincinnati Electronics Congratulates United Launch Alliance on Its 100th Consecutive Successful Launch

CINCINNATI, October 2, 2015 – L-3 Cincinnati Electronics (L-3 CE) is proud to congratulate United Launch Alliance (ULA) on its 100th successful launch.

“We are humbled to be part of this unprecedented record of mission success and are very proud to supply avionics to ULA,” said Mark Dapore, L-3 CE’s vice president and general manager of Space Electronics. “Space flight has always been exciting and has required overcoming some of the most difficult technological challenges in human history.”

For this 100th mission, L-3 CE supplied avionics for the Atlas V. The avionics suite provided considerable launch vehicle control and power distribution and included L-3’s Data Acquisition and Video Integrated System (DAVIS), which collected mission performance data for the health of the vehicle and for data continuity. DAVIS also recorded HD video of key portions of the launch. The launch vehicle’s Tracking and Data Relay Satellite System (TDRSS) transmitter and the range safety command destruct receivers were also part of L-3 CE’s extensive support of this mission.

“We’ve been providing avionics for the heritage Atlas launch vehicles since 1953 and currently support the ULA Atlas V. There is nothing more thrilling than being a part of this historic achievement,” added Steven Flach, L-3 CE’s director of business development.

L-3 CE’s expertise in high-reliability telemetry, tracking and command (TT&C) and wideband data transmission to Earth ground stations has made it a leader in high-technology space electronics. To learn more about L-3 CE, please visit the company’s website at www.L-3com.com/ce.

Headquartered in New York City, L-3 employs approximately 45,000 people worldwide and is a prime contractor in aerospace systems and national security solutions. L-3 is also a leading provider of a broad range of communication and electronic systems and products used on military and commercial platforms. The company reported 2014 sales of \$12.1 billion.
