L3 Communication Systems-Australia Announces Landing Helicopter Dock Designer Deed Contract

SYDNEY, June 20, 2017 – L3 Communication Systems-Australia announced today that it has been awarded a contract from the Commonwealth of Australia’s Capability Acquisition and Sustainment Group to provide design services for the Landing Helicopter Dock (LHD). This new contract strengthens the ongoing relationship between L3 and the Royal Australian Navy (RAN) and establishes a direct line for L3 to provide services and support for the RAN’s Canberra Class LHDs.

“Our work on the LHDs has formed a key part of L3’s Australian footprint, and we are pleased to continue supporting the RAN’s most advanced surface platform,” said L3 Communication Systems-Australia’s Managing Director, Andrew Petersen. “L3 is committed to providing advanced communications solutions for the Australian Defence Force. Our capable and growing in-country workforce, along with access to L3’s global supply chain, enables us to integrate the world’s leading technologies onto the LHD.”

L3 Communication Systems-Australia creates, delivers and supports communication systems for maritime operations and provides support for L3 equipment in land, sea and air domains.

Headquartered in New York City, L3 Technologies employs approximately 38,000 people worldwide and is a leading provider of a broad range of communication, electronic and sensor systems used on military, homeland security and commercial platforms. L3 is also a prime contractor in aerospace systems, security and detection systems, and pilot training. The company reported 2016 sales of $10.5 billion.
