REAL-TIME SOLUTIONS FOR YOUR
TELEMETRY NEEDS

Use of U.S. DoD imagery does not imply or constitute DoD endorsement.

L-3’s multi-band telemetry receivers and PCM telemetry systems have capabilities ideally suited for real-time telemetry applications, flightline checkout systems and portable configurations. A rich, robust and proven set of embedded functions can be applied to a wide variety of data communications solutions. For more information, go to L-3com.com/Telemetry.
